1. LEGAL STATUS AND OPERATIONS

1.1 Saudi Pak Leasing Company Limited (the Company) was incorporated in Pakistan on January 08, 1991 under the Companies Ordinance, 1984 and is listed on all the three stock exchanges in Pakistan. The registered office of the Company is situated at 6th Floor, Lakson Square Building No.1, Sarwar Shaheed Road, Saddar, Karachi. The main business activity of the Company is leasing of assets. The Company's license to carry out the business of leasing had expired on May 18, 2010 and renewal is pending with the Securities and Exchange Commission of Pakistan.

Saudi Pak Industrial & Agricultural Investment Company Limited (SAPICO) is the major shareholder and as of 30 September 2018 holds 35.06% (30 June 2017: 35.06%) of issued ordinary share capital of the Company and 63% (30 June 2017: 63%) of issued preference share capital of the Company.

1.2 The country's weak economic fundamentals has had a pessimistic impact on the local economy. The country is facing serious challenges for the last several years on account of numerous factors along with energy crisis and law and order situation. Higher inflation, political instability, disturbed security environment and lack of trust of foreign investors are the other main reasons and have caused a serious dent in the country's economy.

These factors provide foundation for severe liquidity crunch in the leasing sector nationwide and consequently affected the Company as well. The Company was thus trapped in the mud of defaults wherein recovery from customers has become an uphill task. The deteriorated financial position of the Company can only be overcome by way of fresh injection of funds from sponsors and partially from the recovery on account of balance lease / loan portfolio which is mainly stuck up under litigation. The management is trying its level best to recover as much as possible from the available means.

Although uncertainty still exists due to the above factors which may cast doubt on the Company's ability to continue as a going concern. However, the management of the Company is confident that due to steps / measures as explained in the next paragraphs which are in line with the Board's approved rehabilitation plan for capital management and the approved financial projections, the going concern assumption is appropriate and has as such prepared these financial statements on a going concern basis. Further, in order to improve the financial health including equity position of the Company, the Directors are in the process of identifying strategic investors to inject funds into the Company. This will generally help to revive the liquidity position of the Company.

- Management is hopeful that the reduction in financing cost through restructuring / settlements with the lenders against settlement of loans will assist in reducing the losses and improving the equity. This will make the Company an attractive candidate for equity participation / merger along with an opportunity for the existing shareholders to inject additional equity. The Company intends to aggressively follow-up with its non-performing portfolio for the recovery of principal, mark-up and possession of collateral assets.
- The Company has requested the Securities and Exchange Commission of Pakistan (SECP) for relaxation in the minimum capital requirement under NBFC Rules, 2008 and is hopeful that this request will be accepted based on the condition of the overall business environment and the Company's position in the overall leasing sector.

- 22.4 The Company has been issued with a notice under section 14 of the Federal Excise Act, 2005. Accordingly, Rs. 126.205 million has been alleged to be recoverable. The above amount of FED has been imposed on all the incomes of the Company for the said three years including mark-up income earned on finance lease contracts.

According to the Company's tax advisor, FED is applicable in respect of document fee, front end fee and syndicate lease income. These represent services rendered by leasing companies in respect of finance lease which are funded services. However, these services for the periods 2007-08 and 2008-09 are not chargeable to FED because of the reason that for those years FED was chargeable on services which were non-funded. However, for the periods 2009-10, due to amendment in Entry 8 the said services are chargeable to FED as provisions of the Federal Excise Act, 2005.

The Company has filed an appeal before the Commissioner Inland Revenue (Appeals) CIR (A) against the said order. The CIR (A) vide through appellate order number 97 of 2012 dated 30 April 2012 constituted that the duty so charged is legally and constitutionally valid under the FED Act 2005. However, it also mentioned that the notice issued is barred by time for the period from July 2007 to September 2008 and accordingly deleted the levy of FED for the said tax period. The Company has filed appeal before the Appellate Tribunal Inland Revenue (ATIR) against the above CIR (A) order who has decided the case in favour of the company during the year.

- 22.5 As disclosed in note 20.2.2 and 20.2.3 the Company has not recorded the liquidated damages / penalty in respect as the management believes the likelihood of occurrence of outflow of economic resources is remote against these damages / penalties.
